

DORO® QUICK-CLAMP WITH STARBURST

- FOR RADIOLUCENT QUICK-RAIL® -

DORO® QUICK-CLAMP WITH STARBURST

- FOR RADIOCULENT QUICK-RAIL® -

The **DORO®** Quick-Clamp with Starburst for Radiolucent Quick-Rail® serves as an intuitive interface* for devices used in frameless stereotactic or endoscopic procedures.

Designed for use over the sterile barrier and formfittingly connected to the proven Quick-Rail® of the **DORO®** Skull Clamp Radiolucent, the adaptor provides a stable and secure connection point for third party devices.

Please find further information on the product's web page.

DIRECTLY CONNECT stereotactic devices to the Quick-Rail®

*The interface is designed to bear a max. load of 16.8 Nm (which equals a weight of 3.4 kg attached to a horizontally mounted, 50 cm long arm). It is validated for use with the Brainlab VarioGuide™. It is the responsibility of the user to verify that third party devices can safely be secured to the **DORO®** Quick-Clamp with Starburst for Radiolucent Quick-Rail®. Product is shown with Brainlab VarioGuide™ and **DORO®** Skull Clamp Radiolucent.
