

Press release

Cape Coral, Florida September 14, 2019

Team Black Forest Medical Group participating in fundraising running event.

A mixed team of Pro Med Instruments, Inc. employees put on their running shoes to support a fundraising event held at Lakes Park in Ft. Myers, Florida.

Pro Med Instruments, Inc., now a part of the Black Forest Medical Group, participated at this year's Tunnel to Tower event held in Ft Myers, Florida as part of the company's commitment to support the local community through charitable contributions and community service projects. "Being able to support local charitable organizations is an important part of being an active member of the community" said Amy Zipperer, PMI's head of Employee Engagement programs.

Employees, their spouses and children joined a crowd of over 300 enthusiastic participants on a 3.1 mile course around the beautiful lake. Everybody was proud to supporting the event and all showed great effort in running or walking the course.

Black Forest Medical Group employs highly skilled and dedicated individuals whose mission is to provide relevant benefit, create satisfied customers and making others successful. "We are proud of our employees and are honored to be active in our community where we all live and work" said Urs Brunner, VP & General Manager.

The company

The Black Forest Medical Group, headquartered in Freiburg im Breisgau, Germany is a global leader in the sector of neurosurgical cranial stabilization and brain retractor systems. Its highly skilled employees are driven to create state-of-the-art medical devices which make surgeries more efficient for neurosurgeons and safer for their patients. This is why the DORO® brand became a synonymous for high quality and unique flexibility worldwide.
