

## PRESS RELEASE

26/11/2021

### Fighting violence against women and girls

(Freiburg, Germany)

**The building of the Freiburg-based medical device company, Black Forest Medical Group, lights up in orange.**

Yesterday evening, the new headquarters of the medical device specialist shone in an orange light. Together with numerous institutions in Freiburg such as the Freiburg Theater, the Augustinermuseum and the Albert Ludwig University of Freiburg, Black Forest Medical Group supported the global appeal "Orange The World" from the UN General Secretariat and the NGO Zonta International. On the occasion of the International Day for the Elimination of Violence against Women, the light campaign sent a clear signal against human rights violations. Especially in times of Corona, violence against women and girls increased further.
